

# FINANCIAL MENU

We are a small, locally owned dental practice and we truly value our relationships with our patients and their families. We make our recommendations based on what we believe is the best treatment available for you, regardless of your insurance coverage or financial arrangements.

It is important to us that you are able to get the care that you need and deserve. For your financial comfort and convenience, we offer a wide range of financial options and our highly trained team is happy to help you navigate your options and choose a plan that best fits your needs.

## **PRE-PAYMENT IN FULL : 5% DISCOUNT**

A 5% courtesy discount is given for any treatment over \$500.00, when prepayment is received in full by cash or check when you schedule your appointment.

## **SPLIT PAYMENT: 50%/50%**

A reservation deposit of at least 50% of your total cost of treatment is needed in order to schedule the appointment. For patients using "In-Network" insurance plans, the reservation deposit amount is equal to your total patient portion amount. Any remaining balance is due prior to the time of procedure, cementation, or delivery of any final restoration or prosthesis. You will forfeit your reservation deposit if you violate our no-show or late-cancellation policy.

## **PAYMENT PLAN: PRE-AUTHORIZED CREDIT CARD AGREEMENT**

With your permission and signature, we will charge a credit card with a prearranged payment amount each month, on the day of your choosing. This allows you to make monthly payments without applying for additional credit. Once 50% of the total cost of treatment has been paid, we can then schedule the start of your treatment. This agreement can only be used while you are still in-treatment and any balance must be paid in full prior to completion of treatment.

## **FINANCE THE BALANCE : PROCEED OR CARECREDIT**

This option will allow you to make lower payments and pay over a longer period of time than what we are able to offer through our office. We work with 3rd party finance companies, Proceed and CareCredit, which both offer approvals over the phone or online. When choosing this option, it can allow you to have a low fixed rate or in some cases 0% financing from 12-60 months, and there is no prepayment penalty. Please let us know if you are interested so we can assist you.
